Better demand predictions with Points of Interest

What are Points of Interests (POI)?

Points of Interest are high demand locations near your current location.

The higher the score of your POI, the more likely you'll receive an order in that location.

Moving to these POIs will help you receive orders faster.

💡 Note that this is not a guarantee of receiving an order.

Tap here

This is currently not available for GoTaxi. Kindly refer to gjk.sg/hotspots instead for the latest demand trends.

Quick view of the app

While offline, you can see and set these features in this quick-view screen: Performance, Autobid, and Set Destination quotas.
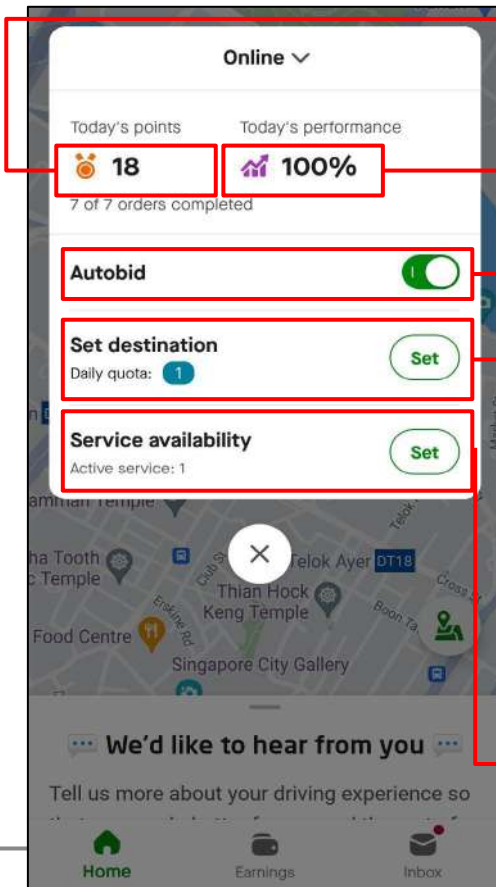

Under the quick view of your app, you will see a **summary of your daily performance and points** earned.

Take note that both points and performance will **reset at 12AM daily**.

The performance is calculated as:

Easily access the Set Destination feature and see your quota

Have the flexibility to choose the product services that you prefer

All about Autobid & Manual Bid

The Autobid function helps you **accept all incoming trip requests automatically**. You will not be able to review the request, destination, or fare.

To access the Autobid function, simply **tap on the small arrow** beside your offline button. **You can toggle Autobid on or off from there.**

The Manual Bid function allows you to **reject or accept incoming trip requests**.

Unlike Autobid, you can **review the request details** like destination and fare. Once **you turn Autobid off, you will be on Manual Bid.**

For GoCar & GoTaxi
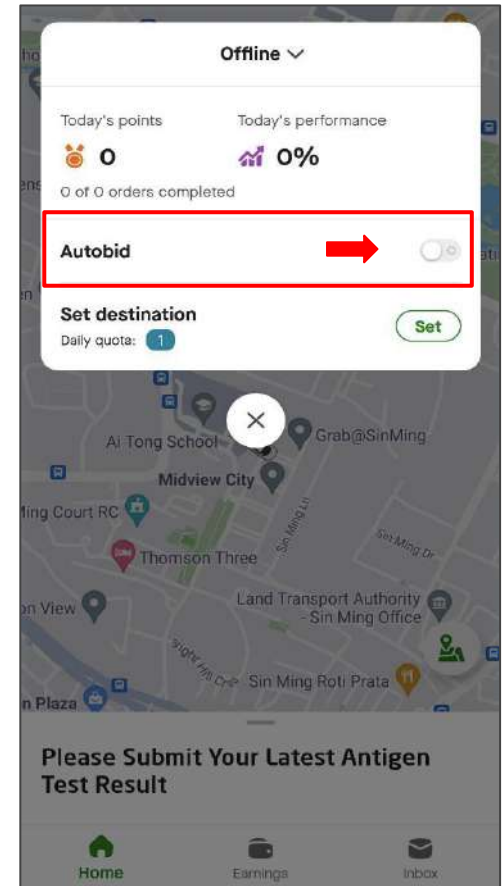

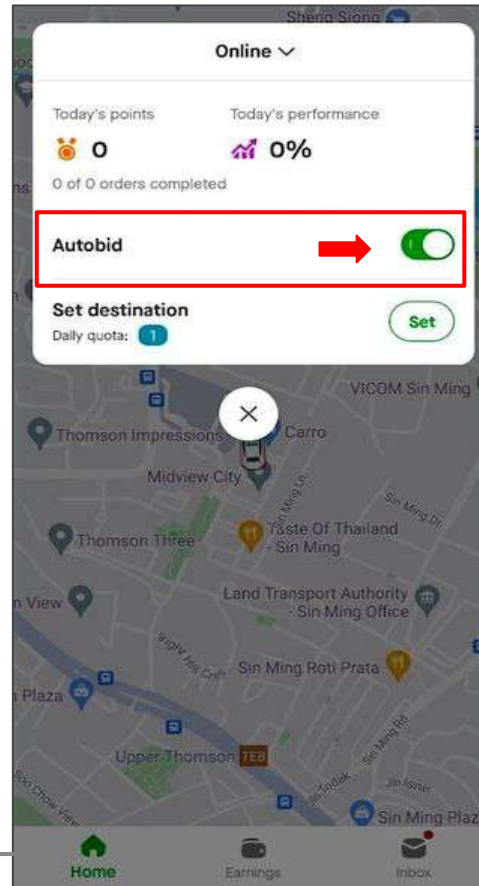

Set Destination feature

This feature allows you to choose a destination so that you can receive booking requests along the way, within a certain distance threshold.
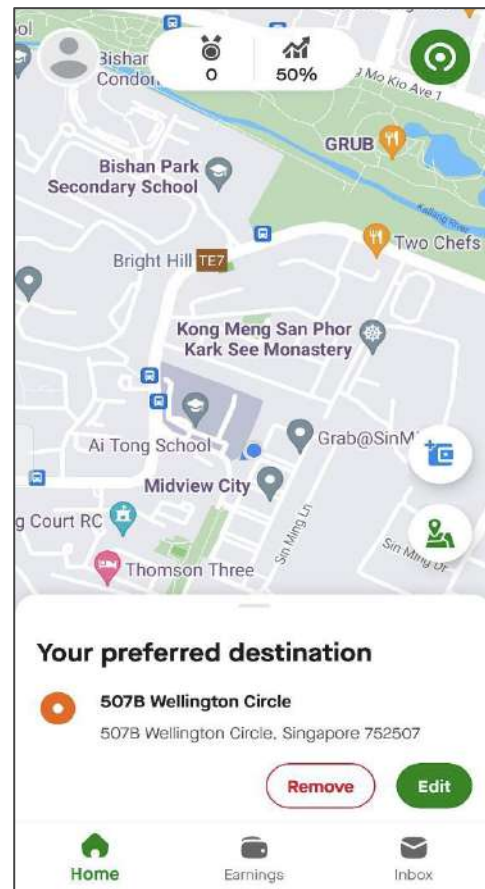

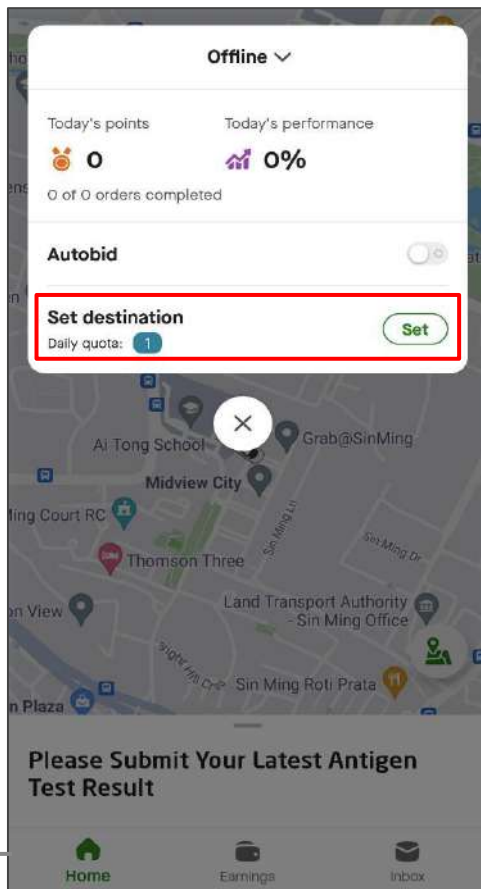

You can expect:

1. **More earnings at your convenience**
2. **Less worrying about receiving orders in the opposite direction of your plans**
3. **Ending your shift with a trip in the same direction as your destination**

💡Pro & Elite driver-partners get 2 quotas every day.

💡Classic & Premium driver-partners get 1 quota every day.
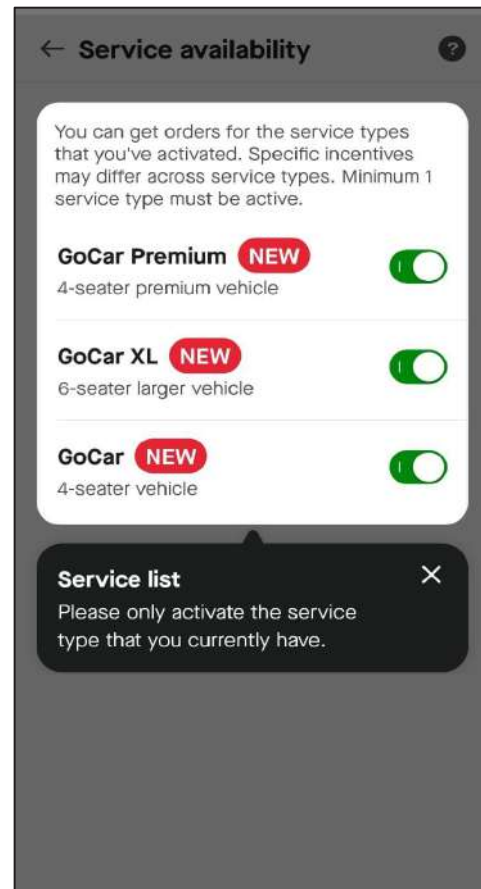

For GoCar & GoTaxi

Toggling service types

This feature gives you the flexibility to offer different services according to your vehicle category.

With higher demand for certain categories at specific timings, maximize your earnings by changing service types.

Things to note

Must-know policies

1. Edit Destination

If your customer needs to change the drop-off point, please advise them to use the **Edit Destination** button while in the middle of a trip. Not to worry – your fare will be updated based on distance!

2. Child car seat

If your customer has a child below 1.35M but you do not have a car seat, please cancel the order and select 'I do not have a car seat for children'. If you do have a car seat, feel free to accept the ride!

3. Lost and found

To report a found item: **Help** > **Trips and Fares** > **I found an item**. We encourage you to return the item directly to the customer as soon as you can. If you do return the item within 24 hours of the trip, kindly write to us for a token of appreciation. Alternatively, you may return the item to GoHub.

4. Cleaning fee

If a customer has made a significant mess in your vehicle, we'll do our best to help you. Send photos of the mess and along with a cleaning receipt via in-app help and we'll cover up to $50 of your cleaning costs.

5. Collecting cash

Always remember to check your customer's payment method in order to make sure you get your earnings. Look out for the "Cash collected" field under payment details for a reminder to collect cash (Credit trips will show $0.00 under "Cash collected").

Safety first

1. Protect customers' personal data in compliance with the PDPA's and LTA's rules

In compliance with PDPA's and LTA's rules, please refrain from retaining, using, or sharing (including on social media) personal data of customers for any other purposes but picking them up or dropping them off.

For more information, visit gjk.sg/guidelines

2. Making pre-arranged trips

Trips should not be arranged between customers and partners. This is considered fraud and may result in you losing access to the Gojek platform.

3. Sharing your account

Each Gojek partner must have their own account. You are not allowed to share your account with others.

4. Self-booking

Booking your own trips with a customer account is considered fraud and may result in you losing access to the Gojek platform.

5. Fraud

Any fraudulent activities/misuse of the Gojek app may result in account deactivation. Note that Gojek may also withhold the balance in your Earnings Wallet if the transactions are believed to be fraudulent.

6. Sexual misconduct

Gojek does not tolerate sexual misconduct and will cooperate with relevant authorities if you are proven to have conducted any sexual misconduct.
